PROFILE

In the world of technology, frontend development has been a major part of the software ecosystem. As a Frontend Web Developer, I bring in-depth knowledge of the latest technology trends to produce clean website designs. I have extensive experience handling complex JavaScript coding, designing, and extending functionalities to meet an organization's front-facing internet needs. I am detail-oriented and excel in collaborating with others to define project expectations and demands. Currently, I am working on React and am eager to gain more knowledge in this field to further enhance my skills and contribute to innovative projects.

WORK EXPERIENCE

● SimplifyTechnologies

Duration: May 2024 - Present

A Tech-Consulting Firm that focused on delivering value at scale through best-practice business and simplified technologies.

-Worked with the dev team to build software solutions for numerous financial institutions..

SKILLS

- HTML5
- CSS3
- Git
- Redux Toolkit
- JavaScript
- Typescript
- React.js
- Tailwind CSS
- Next.js
- GitHub
- Gitlab
- Material UI

PROJECTS

- **Movie App.**

A dynamic movie application using Next.js and the MovieDB API. The app allows users to browse a vast collection of movies, watch trailers, and learn more about each film's details, including genre, release date, and more.

Key features include:

- Movie Browsing: Users can explore a diverse selection of movies, organized by categories such as popular, top-rated, and upcoming films.
- Trailer Viewing: Each movie entry includes an embedded trailer, allowing users to preview films directly within the app.
- Search Functionality: Users can search for specific movies by title, making it easy to find trailers for their favorite films.
- Responsive Design: The app is optimized for various devices, ensuring a smooth experience whether accessed on a desktop, tablet, or mobile phone.

By integrating the MovieDB API, the app continuously updates with the latest movies and trailers, offering users up-to-date content and an enjoyable browsing experience.
